CALIFORNIA INSTITUTE OF THE HEALING ARTS & SCIENCES

*Healing Mind, Body &
Emotions Naturally*

*"Every Journey Begins
With a Single Step."*

California Institute
of the Healing Arts & Sciences

Since 1943, CIHAS has been a leader of education and research in the healing arts. We are a professional institution that is recognized by the state of California and Licensed by the Bureau for Private Postsecondary and Education. We educate and train the public about the latest techniques in Holistic and Alternative Medicine, Life Coaching, Hypnotherapy, and Behavioral therapy. We also research the potential of the mind-body connection, and emphasize in our teachings the potential of the human mind to positively impact the body.

At the California Institute of the Healing Arts & Sciences we are committed to our students to provide the very best available in Alternative-Holistic-Natural Methods for training Practitioners of Healing.

ABOUT OUR TRAINING

These training programs are built on two themes:

First, that anything which helps us feel more connected also helps us heal.

Second, that we create our lives through conscious and subconscious choices.

An Amazing Journey Awaits!

As a graduate, you are trained and prepared to establish your own private practice as a Hypnotherapist, Behavioral Therapist, Life Coach, Alternative or Holistic Health Practitioner, Herbal Practitioner, Aromatherapist, or Master Herbalist.

We care deeply about your progress, completion, and success as a student and

WE SUCCEED WHEN YOU SUCCEED!

We explore the intimate connection between body, mind, spirit, and emotions in respect to physical and mental health and illness. We believe that when given the opportunity, the body can heal itself, by getting back into balance and creating an environment for healing. The Body has considerable power to heal itself and as healers, we strive to support the natural healing power of the mind-spirit-emotion-whole body.

Our Certification Training Programs offer in-depth, step-by-step teaching processes which are designed to give students everything they need to be successful in the rapidly growing field of the healing arts.

OUR MISSION

To provide the highest level of professional healing arts training in the World.

OUR OBJECTIVES

- Introduce students to new and innovate ways in which the mind and body can heal itself.
- Train and prepare students to establish private practices or secure jobs in the healing arts field.
- Maintain an educational environment that respects and welcomes a diverse group of people, including those with diverse backgrounds, abilities, interest, and opinions.
